### MARQUETTE UNIVERSITY:

A Commitment to Intellectual and Moral Excellence

MUCH like a gyroscope, our university life should constantly revolve on a sound core to maintain balance. To achieve this, all potentialities of each individual student must be activated in their proper proportions. If one outweighs the others, it may topple the gyroscope. The student who places so much value on his social life that his intellectual life suffers has misplaced the gyroscope on the seal, tipping it perilously to one side. It can be rescued to its proper position only if we learn to be more than one-sided, to take advantage of the whole University—its teaching. organizations, and activities—so that we will become wholly educated persons. And it is the wholly educated man who is able to give each phase of his university life its proper weight. : Last fall this concept of the wholly educated person was presented us at the President's Convocation. We were challenged "to foster individual development within a framework of rational and moral values." If we are to take up the challenge we must discover the deeper meanings of this message. Individual development is the primary accomplishment which will prove the success of our University education. . In a university we find a mass of students who share a common bond of class schedules. social activities, and spiritual life. Despite these common characteristics, each student is an individual, morally responsible for the development of his own spiritual, intellectual, and social personality. 🔀 Last year, the University announced a new theme, "Marquette University: A Commitment to Intellectual and Moral Excellence." On this occasion, Father Adrian J. Kochanski, S.J., Dean of Liberal Arts, stated that Marquette is reaffirming "her vital concern for the development of the whole human person by demanding a higher quality of effort and achievement in all disciplines working to this end." \* Under this new theme, students have completed another year of college education; for some, their last year. If they have accepted and met the challenge to full development, they have attained the balanced life, signified in the MU seal base of the gyroscope.

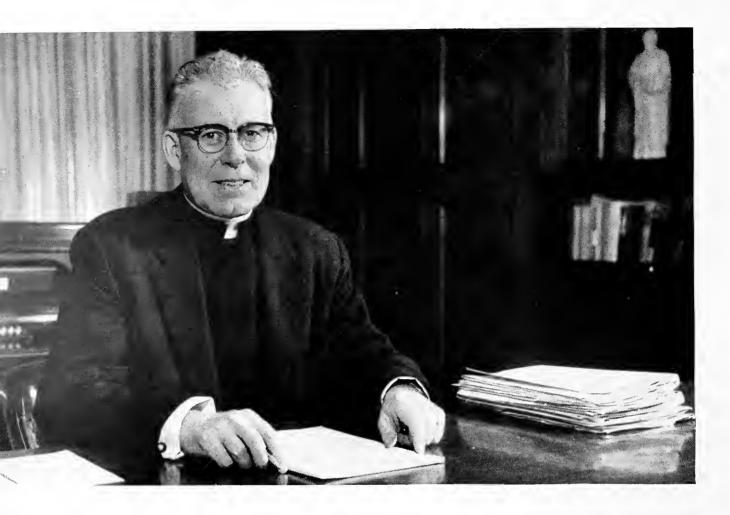

AFTER 38 years of inspiration and guidance to students of the College of Engineering, Dean William D. Bliss retired from his active position. However, his retirement did not deprive the school of his services entirely, for in 1957 he was honored with the title of Dean Emeritus. Since then he has become the acting director of the Mechanical Engineering department. With an informal manner and a eigar in hand, Dean Bliss made his students comfortable while he urged them to persevere and work, much as he himself has done during his lifetime. His own career illustrates his struggle to achieve an education. As a youth he

## DEDICATION

quit high school for financial reasons to work in an oil field and later worked as a journeyman machinist before entering college. Faced with insufficient academic preparation—no high school diploma—and lacking funds, he persevered through Milton College and the University of

Wisconsin, graduating as a chemical engineer in 1912. St. In 1914 Dean Bliss came to Marquette and the Engineering School when school officials were looking for a temporary teacher to fill a gap left by a resignation. Dean Bliss, then working for Allis-Chalmers, volunteered his services. The Dean once reminisced about his early teaching days, saying "I taught thermodynamics, heat engines . . . everything." & Dean Bliss extended his "temporary" job and in 1919 initiated the co-operative training program at Marquette, whereby engineering students were required to alternate two weeks working in local plants with two weeks in school. This plan was later made optional. @ In 1928, Marquette lost Dean Bliss for two years to Texas A & M College. Then he returned as head of the Chemical Engineering department. State When Dean Franz A. Kartak died in 1943, he was asked to take the deanship. "It seemed to be the best contribution I could make to the war effort, so I agreed to serve throughout the duration," he recalled, adding that "when the vets came in, I couldn't have been dragged out of the place." ( The now completely willing Dean headed the Engineering College until his resignation in 1956 and led a steady, deliberate advance in engineering education along the soundest practical lines. He was continually searching for new ways to improve the school, and the students found him an easy man to approach with their problems. He had experienced them himself. Even though the Dean has retired from duties of routine administration, observers remark that he seems to be around even more. And since he has time for closer contact with the students, the Dean himself believes he has "a higher job now." . To this symbol of perseverance, counsel and advancement, to a man who has taken upon himself a commitment to moral and intellectual excellence, to Dean Emeritus William D. Bliss of the College of Engineering, we respectfully dedicate the 1960 Hilltop.

### MARQUETTE UNIVERSITY PRESIDENT

### To the Graduates of 1960:

As you reach the successful climax of your college careers, I extend to each graduate my personal and hearty congratulations. You have completed a strenuous period of study and growth and can be justly proud of your success and achievement.

The crisis of our times places a serious obligation upon each of you to continue your growth in truth and virtue beyond your college days through all the years of your life. I hope that you will continue to nourish that thirst for knowledge and goodness which Marquette University sought to instill in you.

The coming decades will also be years of opportunity for all of you. There is great need in our world today for young men and women willing to use their talents and special knowledges for the service of their fellow men, striving to insure peace and justice for all mankind. I am confident that many of you will find your places in the front ranks of those so dedicated—reflecting credit upon the University which has sought to serve you.

E. J. O'Donnell, S.f.

# UNIVERSITY

	Ġ.	

WE CANNOT expect to develop our well-balanced personality on our own, independent of the everyday influences on the campus. Rather, our personality gyroscope spins and grows within the framework of the University, using to best advantage the opportunities afforded by the administration, faculty and myriads of University services. 

The proper growth and polish of our personality needs the benefit of counseling from teachers. the wisdom of the Library and the lightness of the Union. Without these, our gyroscope will falter and tip, searching for something secure to regain momentum. 🜓 The University—with its strong academic program and a faculty dedicated to education rather than personal glory—has long been a basis for development. This year's expansion of departments, integration of courses for several schools and the new science building echoed the commitment to excellence and further strengthened the basis for our growth. 

Marquette's Catholic heritage affords another opportunity that is not available to all college students. We realize that religion is essential to our development. We have access to Masses at Gesu, the services of the Jesuit community and the religious atmosphere of the entire University. Just as the spirit of Catholicism permeates all things while we are here, so should it be our guide after we leave the campus. We cannot achieve our well-balanced personality without the benefit of religion to furnish the norms by which we grow.

# UNION

Top: Since the Union's opening in 1953, the grill has been the favorite gathering place for students before and after classes. Rooms are also available to student groups free of charge far arganization meetings. Upper left: Many students take advantage of the cafeteria. A college trained dietician plans each day's menu, praviding a variety of well-balanced meals. One hundred people, including many part time student workers are employed in the cafeteria. Lower left: The ticket booth is a handy place to purchase tickets for activities spansared by University organizations. The second floor ball-room, seating up to 600, is often used for displays, exhibits and speeches.

The heavy noan hour traffic in the grill provides a good apportunity for the exchange of information. Each day the cafeteria and grill serve about 4,500 students and faculty members.

**Brooks Memorial Union** 

r-dinner discussions in the cafeterio are frequent. ents are also invited to eat in the faculty dining n near the cafeteria. Informol faculty-student coffee s were inougurated this year in the Union.

There's nothing like settling bock and catching up on the events of the day. The hi-fi lounges on the first and second floor are also popular for reading and studying.

A co-ed pauses in the first floor lobby to read a news article about Marquette. Students also may use the near-by University-operated bank.

**Upper:** Students leave the Marquette Memarial library, which accammodates 500,000 valumes and provides adequate research facilities for the students. **Right:** Study areas are available on all three of the library's main flaors far student use during the day and in the evening.

In addition to the regular day program, the University also offers an extensive evening division and continuing education program, under the direction of Brother Leo V. Ryan, C.S.V.

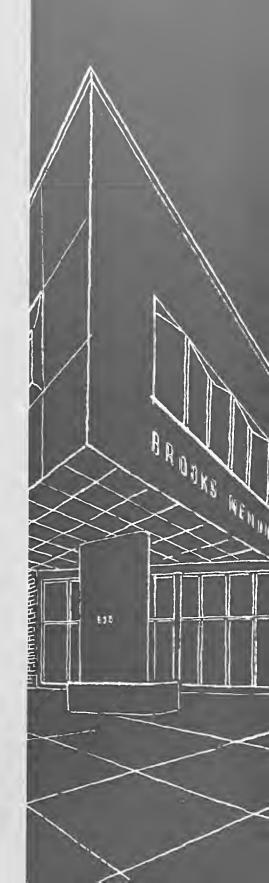

Evening division courses carry regular credit and provide an opportunity for degree work for those unable to attend day classes. Courses are offered in Engineering, Liberal Arts, Business Administration and Nursing.

Short-term courses, which have no exams and offer no credits, are offered to those who do not have time for full semester courses. These courses help adults to keep abreast of current affairs and include many self improvement courses.

Marquette debate squads finished the 1959-60 season with mixed records. The varsity team of Tom McCarthy and Barry Narcisse hit their season high mark with a third place in the Northwestern Debate Tournament, one of the nation's largest. Narcisse scored individual triumphs in oratory, taking first place in Marquette's Kersten Oratory Contest, and in the Wisconsin State Forensics Tournament.

Freshmen debaters took second place at Purdue University, for their most important victory.

m I m T's June, 1960, the year and month awaited and expected by many Marquette students as the time of completion, fulfillment -graduation. But though it is, it is not, for all of us realize that completion and fulfillment are yet to come. We are only partly fulfilled and by no means a finished product. 

We see that our gyroscope should be in perfect balance now. We should be the whole man, the whole personality reflecting college years of spiritual, mental, physical, and social education. Each phase of our lives should contribute to the other-integrating, intertwining, and elevating. No single one should grapple with another, should conflict or stifle. Each should grow, made richer and more fertile by the development of the other. 

The ideal? We answer that it is an inquiring mind, a healthy body, diverse and numerous social experiences, enmeshed in a moral and spiritual love and dependence on God. 

But even the ideal has a peak yet unwon, for the gyroscope continues to spin and is easily knocked off-center. More than skill and the past must keep it on course. Stability and success are the prizes for initiative, labor, and perseverance. 
Four years or more of formal training at Marquette for a profession, for an occupation and for life have passed, but the profession, occupation, and life have just begun as have the training and learning. Marquette has supplied the necessities, the introductions to logical analysis. appraisal, and primary use of fundamentals. The English major has been introduced to great writers of our language, but the open door reveals a spacious area of research to be done before communication to others can be effective. The M.D. attachment to an intern's last name stands for Doctor of Medicine. Now he must prove it. Graduates of the College of Engineering seek their first position. They have yet to construct their first bridge. And I...

## ACTIVITIES

E PRAY, we learn, we live—together. A University is as much a microcosm as is a man, a miniature of the world made up of people who have different interests, abilities, personalities. It is through our relationship with members of this body that we learn to appreciate society itself and the social nature of man which is God-given, not to be tolerated or drained, but to be enlarged, enriched, made to grow. College is made up of various social relationships—spiritual, cultural and professional. We live with the people who fit into these categories. Not all of the student's time is divided between books, typewriters, pencils, test tubes and slide rules. He seeks advice. service, training and companionship from those who make up the University. The student is seen in the classroom, in personal conference with teachers, at speeches and public events. in workshops. He can be found at a movie, on the dance floor. in the Union, at bowling alleys, auditorium, fraternity house, coffee shops—and in Gesu. Wherever we find him, he is not alone. And it is those with whom he mingles who make up his society, who help to determine the amount and nature of social experience he will carry with him after graduation. The amount of time and energy spent on such relationships will partially determine their value to him now and later. must remember that activities and social relationships are not the whole of society. To mistake them as such would be to topple our gyroscope or to set it twirling on the outer rim. The center of the Marquette seal is education and personality development intertwined with the individual himself and society. Both must be discovered and developed. If the goal of education at Marquette is to be attained, each of us must discover himself and then grow with others, proportioning the development of each part to the good of the whole.

Students discussed courses during fall registration.

## REGISTRATION

## GRADUATION

EVERY JUNE, thousands of people crowd into the Milwaukee Arena to witness Marquette graduation. Among these thousands are the graduates themselves, distinguished from the rest by academic gowns and diplomas.

They wear the academic gown—symbol of the educated and aware. They carry the diploma—symbol of years at Marquette and commencement.

Their time at Marquette has been geared to many goals: winning Homecoming or Varieties trophies, meeting term paper deadlines, passing exams, mastering courses of study. Some of the goals were realized. Others, though achieved only in part, established new and deeper purposes. Some aspirations were discarded because they were dreams.

With commencement, the graduates leave Marquette. In an exchange, they have left four years for an academic gown and a diploma. These two symbols that mark the graduates in the Arena crowd are with them forever: Educated and aware, Marquette graduates are in life's crowd.

SPORTS

		4

I HE DEVELOPMENT of our well-balanced personality is nearing completion. We have enlarged our intellectual capacities through the academic program, have added polish to our social nature through University activities. and have developed our physical selves. \* Realizing that a person is not fully developed until he is physically grown, Marquette has established an intramural program geared to provide opportunities for training and relaxation. According to the University's listed policy, intramural sports are to "provide a wholesome program of physical activity for the entire student body." A year-round program enables teams gathered from dorms, fraternities and independents to participate in football, bowling, basketball and softball. Individuals, too, may avail themselves of the gym's weight training, handball and boxing facilities. \* Such recreational sports are not limited to the men, however. Through the Women's Recreational Association, coeds are able to develop grace in such activities as fencing and bowling. ★ On the intercollegiate level, sports provide a high degree of competition for the trained athlete. Here he can meet his challenge, excell, and gain recognition on the field or court. The value of intercollegiate sports is not limited to the active participants, however. Sports become a social activity—witness the many football and basketball games where a feeling of comradeship springs from a stadium full of students. And the cheers thundering through the arena after a Marquette victory give evidence to the spirit generated by the game. ★ The last facit of our personality development—the growth of our physical selves—has been set into place. We should now be ready to take our position as integrated, well-balanced personalities.

The Robert McCahill award which is given annually to the University's outstanding student-athlete is awarded ta Charles Mulcahy, tennis star from 1957-59 by Bernie Schubert.

Lisle Blackbourn Head Coach

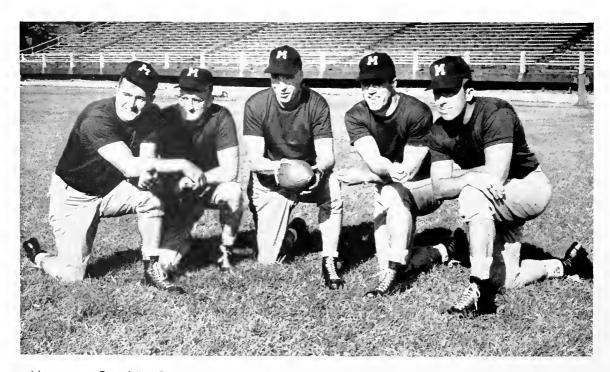

# FOOTBALL

The 1959 season marked the return of Lisle Blackbourn to the Hilltop. During his absence of five years, he had coached the Green Bay Packers of the National Football League and was both football coach and athletic director at Carroll College.

Blackbourn's last year at the Warrior helm, 1953, was a successful one. The Warriors won six, lost three and tied one that year, the losses coming at the hands of Big Ten teams by a combined margin of nine points.

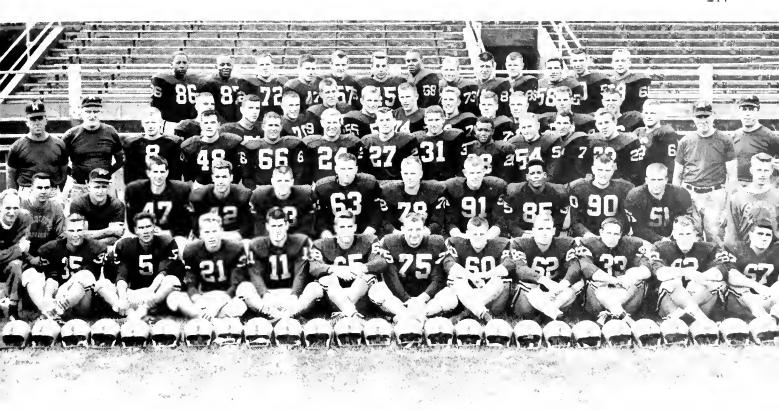

Since 1953, the Warriors had experienced five frustrating seasons, winning seven, losing 37 and tieing three.

Blackbourn brought the pro-type slot-T offense with him to Marquette. To direct the attack, he selected Pete Hall. Hall, "the workhorse wonder" as he was once labeled by the Associated Press, did a superb job as quarterback. He was the nation's third leading college passer and finished third in total offense. But it was not all Hall; it was a team effort.

Captain Joe Anderer

This was a successful season despite the won and lost record of 3-7. It was successful because the confidence which had been lost during the drought is restored in the team.

Indications of things to come were shown in the Warriors' opener.

Returning to Marquette Stadium after two years of home play at County Stadium, the Tribe battled a highly touted Pittsburgh team. Hall filled the air with passes. He completed a 30 yard pass to Larry Hubbard for the Warriors' first score of the campaign. After a scoring end run by Hall, Jim Webster booted a 27-yard field goal to put the Tribe in the lead.

But disaster struck late in the fourth period. A blocked punt set up an easy Panther touchdown. Although statistics favored Marquette, Pittsburgh won, 21-15, thus spoiling Blackbourn's debut.

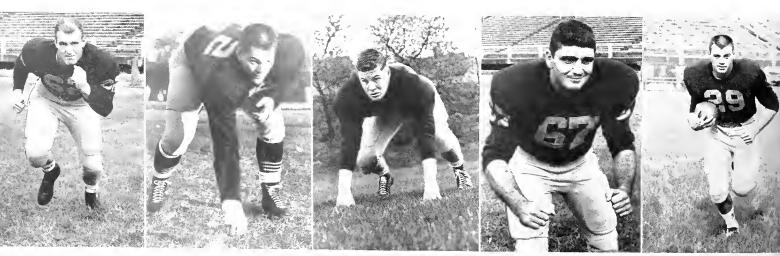

Playing on a field of Milwaukee mud, the Warriors were unable to get their passing attack rolling against Detroit's Titans. Their running game was stymied by a stout defense.

A Detroit defender grabbed a Hall pass and ran it into the Marquette end zone. That was all the Motor City eleven needed, but they scored again late in the game, defeating the Warriors, 14-0.

The annual game at Madison against the University of Wisconsin started out as if it might be a different story than in recent years. But it ended in the same way.

The Warriors opened the game quickly. Twice in the first quarter they moved the ball to within scoring distance. Twice they failed to score. Then the Badger machine started to move. The Badgers rolled up 36 points before the Warriors tallied. A 29-yard pass from Joe Schulte to Mike Shea provided the Warriors' only score. The final score: 44-6.

Traveling to Bloomington, the Warriors became the target of an overpowering Indiana ground attack. The Warrior defense had difficulty containing the Hoosiers' speedy, flashy single wing attack.

The boll gets away from Jim Webster ofter he was hit by Holy Cross tacklers. Tom Henehan (63) appears ready to claim the boll for the Crusaders, but Larry Hubbard (not in picture) recovered for the Warriors.

Time after time, led by Hall's fine performance, the Tribe threatened, only to be stymied by intercepted passes, blocked punts and costly fumbles. When it was all over, the Warriors had suffered their fourth loss of the season, 33-13. Frank Mestnik and a Hall-to-Fred Hawkins pass accounted for the Warriors' scores.

Undoubtedly remembering their upset defeat at the hands of Marquette a year ago, the Tigers of the College of the Pacific sought and got revenge, 22-13.

Hall had a bad night under the California lights and the Warrior rushing game lacked the extra push when it was needed. Gambling on short yardage for first downs, the Tribe failed three times.

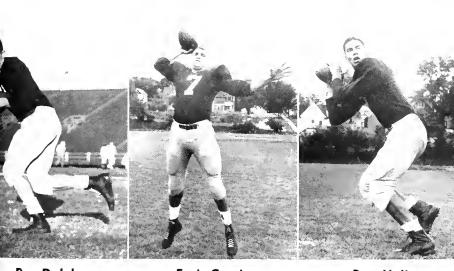

Gaining 67 yards in 13 plays, the Warriors scored early when Mestnik bulled over from the three. But the Blue and Gold went cold until it was too late. A six-yard pass from Schulte to George Andrie late in the game provided the Warriors' final tally.

The Tribe crossed the country to meet its next opponent, Boston College. When rain postponed the game one day, the Warriors took to a Boston hotel

banquet room for practice. But the practice and rest did little good. The Warriors reached the low point of the season, bowing to the Eagles, 16-0.

The Warriors returned home after four fruitless road games to meet Oklahoma State. It was homecoming. The Warriors were hoping for the same ending as last year's homecoming when they downed a highly favored College of the Pacific team.

With only 45 seconds remaining, it appeared as if the Warriors were on the upgrade with a score tied at 12-12. But then the Cowboys scored the winning touchdown.

Both Warrior tallies came as a result of Hall's passing. The first TD was a 25-yard toss to Andrie, the second, an 11-yard pass to Hubbard.

One thing was apparent—the Warriors were on their way back.

The Tribe experienced its first victory the next week. Entertaining North Dakota State, the Warriors could do no wrong. They trounced the Bisons, 48-0.

Jim Webster scored two touchdowns as did Si

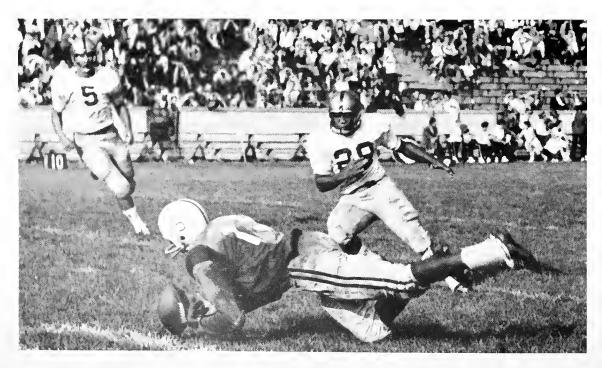

Woods. Andrie, Mestnik and Ron Jennings scored one apiece. The Warriors had snapped an 11-game losing streak.

The Tribe traveled to Cincinnati the next week, and it appeared as if their losing habits had returned. The Bearcats jumped to an early 14-0 lead; the Warriors overtook them, 15-14, on scores by Mestnik and Webster. But Cincy fought back to a commanding 34-15 lead.

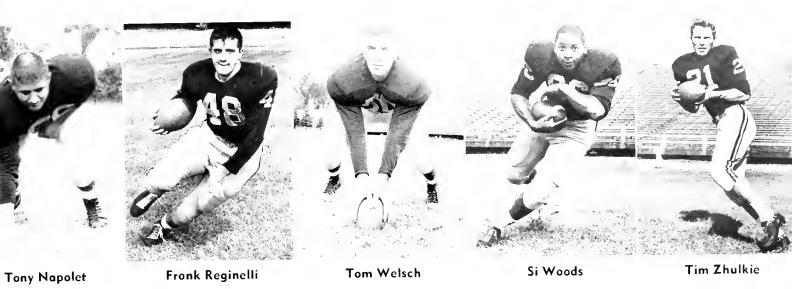

Then the Warriors started their comeback. With 5:30 remaining in the third quarter, a pass from Hall to Tim Zhulkie produced a score. Mestnik then scored his second TD of the day. The score was 34-27; there were a little more than six minutes left in the game.

Cincinnati was forced to punt. The Warriors went to the air and had moved the ball deep into Cincy territory when a pass backfired. A Bearcat defender intercepted a Hall aerial on the Cincy one yard line. The Tribe appeared to be through.

But luck was with the Warriors. On the next play, a Bearcat fumbled the ball and Andrie recovered. A

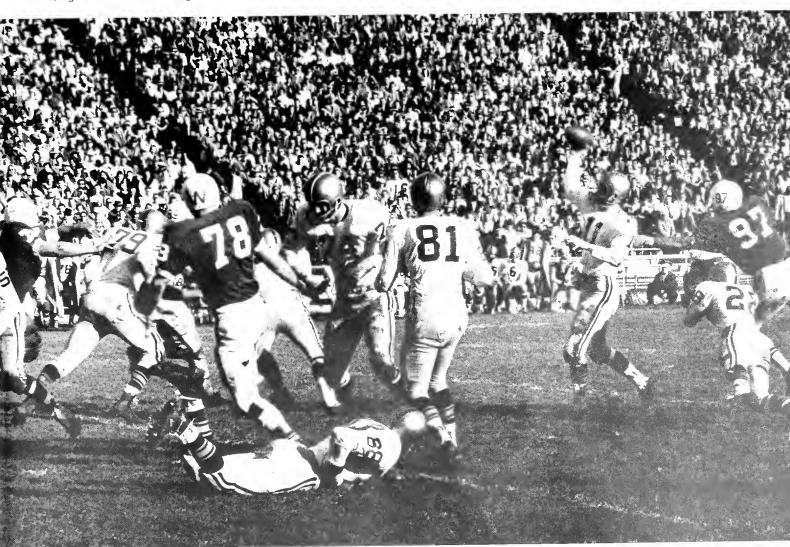

Indiana's Randy Williams fails in an attempt to catch a pass as Pete Hall (5) and Ran Jennings close in.

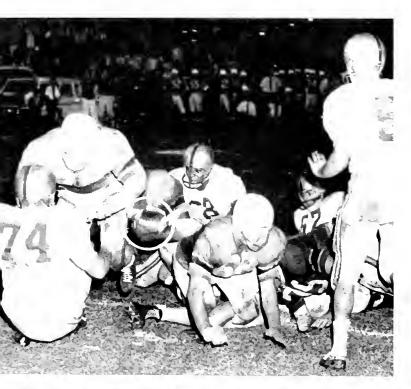

### 35th ANNUAL MARQUETTE-WISCONSIN GAME

Engineering Morquette's only touchdown drive, Joe Schulte gets his pass off in time, just avoiding the outstretched orm of Wisconsin's Jim Holmes. Providing protection for Schulte are Al Messerknecht (79), Ken Schoffer (74), Charlie Dreos (81), Jesse Lee (on ground) and Ron Jennings.

penalty moved the ball back to the six. Hall then rolled out and into the end zone. Marquette trailed by one point.

The Warriors elected to try for two points and using the same play with which he had scored. Hall squeezed into the end zone and the Warriors won. 35-34. It was a victory well deserved: a victory in a game in which the Warriors would not give up.

The Warriors closed the season with Holy Cross, a team which had only lost two games to the national powerhouses. Syracuse and Penn State. Unfortunately for Holy Cross they had to battle Marquette at its peak. The Warriors knew they could win, they wanted to win and win they did, topping the visiting Crusaders, 30-12.

After the first quarter, it was all over for the Crusaders. The Warrior defense, giving its best performance of the season, allowed the Crusaders only 33 yards on the ground. Warrior touchdowns were scored by Mestnik, two, Webster and Hall. Two safeties added to the cause as the Warriors' ended their most successful season since 1954.

Above: COP's Henry Walloce carries the ball over the goal in the fourth period to lead the Tigers to a 22-13 victory over the Warriors. Identifiable Warriors are Ken Schafer (74) and Pete Hall (5). ### FRESHMAN FOOTBALL

Freshman speedsters will figure heavily in Liz Blackbourn's search for a new starting backfield in the fall of 1960.

Although they lacked the overall size of recent frosh teams. George Kelly's crew had an abundance of speed. Leading the way were Art Allen. Bob Collins. Jim Lanigan. John Loden. Bob Lott and Mike Merkle. all halfbacks.

Battling for the quarterback position vacated by Pete Hall will be a trio of good signal callers. Lou Distelweig. Jim May and Terry Zang. Ralph Kubinski. Gary Podesto and Paul Poesch will battle for the fullback slot.

Among the more promising frosh linemen are John Sisk and Dave Theisen, ends; Bernie Gajewski and Gene Schalleron, tackles: Tony Alleva and Eldon Bloedorn, guards; and John Muellerleile and Bob Osterman, centers.

Kelly was assisted by former varsity players Bill Hare, Bud Manry, Bill O'Connell and Gil Sedor.

With an early November horizon as a background, Marquette harrier John Lesch leads fellow Warriors and their opponents, the Wisconsin Badgers. Lesch maintained his lead as the Warriors edged their cross-state rivals, 25-30.

### CROSS COUNTRY

The 1959 edition of the Marquette cross country team finished with a fair 2-4 record. Early season injuries to Jim Allen and Isauro Rivas, both heavily counted on, prevented a winning season.

Coach Bus Shimek's crew topped Wisconsin and UWM while losing to Iowa, Minnesota, Notre Dame and to Indiana and Western Michigan in a triangular meet.

The Warrior harriers won the Wisconsin AAU meet and finished third to Western Michigan and Notre Dame in the Central Collegiate Conference championship meet.

Captain John Kotsubka, John Lesch and Dick McDermott led the Blue and Gold runners. After recovering from their injuries, Allen and Rivas also contributed capably to the Warrior cause.

### BASKETBALL

"A terrific year except in the loss column."

These words of Coach Ed Hickey explain the 1959-60 basketball season. The Warriors, who concluded the season with a 13-12 record, played good basketball, but at times a shade too little of it. The habit of losing leads, which Hickey attributed to lack of depth and height, cost them six victories.

The Warriors opened the campaign against NYU in Madison Square Garden, December 3.

Down 32-28 at intermission, the Tribe rallied and were in the lead when a tally by the Violets, with 45 seconds remaining, gave NYU the game, 70-69.

The Warriors' rebounding was magnificent, with Don Kojis and Walt Mangham accounting for the most of Marquette's 42 rebounds during the first half. Overall, the hard fighting Warriors outrebounded NYU, 69-39. Kojis scored 13 of the Tribe's last 20 points and led both teams in scoring with 31.

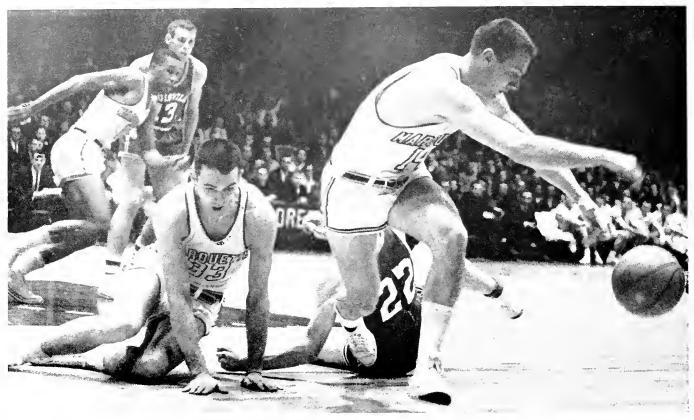

The Warriors opened their home season in friendly Milwaukee Arena and breezed to an 88-63 win over Abilene Christian. Kojis and Mangham led Marquette with 21 and 19 points.

South Dakota State was next to come to Milwaukee. Sloppy play on the part of MU kept the Jackrabbits in contention until Jerry Keidel and Kojis pulled the Warriors from behind in the last seven minutes to win, 76-69. Kojis sparked the Tribe with 27 points.

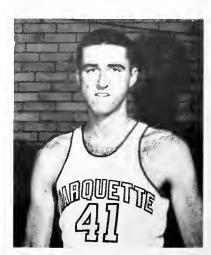

With their one-two punch, Kojis and Mangham, out of the game on fouls, the Warriors blew an eight-point lead and bowed to Illinois, 89-77, at Champaign. Jim Kersten, outbattling the Illini's taller centers, combined seven field goals and converted 11 of 12 free throw attempts to lead all scorers. However, his 25 points to-

gether with Mangham's 23, were not enough to combat Illinois' balanced scoring. Four Illini placed in double figures.

A record tying crowd of 11,056 packed the Arena when the Warriors tangled with the Wisconsin Badgers in December. Marquette used the full force of its fast break in trouncing their state rivals, 84-66. Mangham, with 23 points and Kojis with 22, topped the Warriors who shot 43 per cent. Mangham grabbed 22 rebounds.

Stanford brought a tight defense to the Arena and allowed the Tribe only 50 shots. But the Warriors connected on 23 of them to defeat the Indians, 63-50. Mangham controlled both backboards and snared 19 rebounds, but as a team the Warriors were outrebounded, 48-47. It marked the first time MU had been outrebounded. Mangham contributed 20 points.

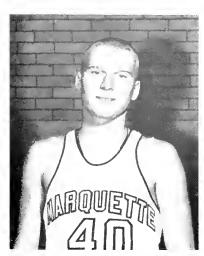

After celebrating Christmas, Hickey's crew entertained their cross-town rivals, UWM, and dealt them their first loss of the season. The Cardinals led once, at the 1-0 mark. Then the Warriors, led by Kojis and Mangham, took charge to win, 84-70.

Kojis gave one of his better performances, scoring 30 points and snaring 25 rebounds. His rebound total was two short of the school single game record held by Mike Moran. Mangham chipped in 16 points and hauled down 22 rebounds.

The old year went out on a sad note for the Warriors in DePaul's bandbox gym when the Blue Demons made Marquette their seventh straight victim, 75-55.

Loyola and St. Norbert became the next Warrior victims at the Arena. Down 32-28 at half time, the Tribe scored 16 quick points, then coasted to a 63-60 victory over Loyola. Mangham's 19-point production was high for the night.

MU exploded and missed the Arena scoring record by two points when they crushed St. Norbert's Green Knights, 98-64. Kojis and Mangham again led the way, scoring 28 and 27 points and picking off 33 rebounds between them.

Joe Sconlon rides the bock of Ray Mock as he puts in a layup during the Bradley game.

It was a whistle blowing night. The referees called a total of 45 fouls. But the Warriors took advantage of their opportunities, converting 22 of 28 from the free throw stripe.

Against Louisville, whose front line averaged 6'7", the Tribe shelved its fast game and played control ball to win, 61-57. Kojis, who along with Mangham scored 20 points, sank two free throws and scored on a tip-in in the final minutes to give Marquette its 23rd consecutive victory at the Arena.

Whistle blowing filled the Arena again when the Warriors toppled at the hands of Detroit, 89-85. The crowd was aroused by the 27 fouls called on MU. Jim Kollar, Kersten and Mangham fouled out.

Kojis, who contributed 23 points, and Joe Scanlon, who tallied 18, sparked a Warrior rally in an attempt to catch the high-flying Titans, but their effort fell short. The home game winning streak was over at 23 games.

St. John's of Brooklyn, 1959 National Invitational champion, was Marquette's first opponent following semester exams. After controlling the game for 30 minutes, the Warriors tired and bowed, 69-63. Mangham chipped in 18 points in a losing cause.

Bradley came to Milwaukee with but one loss marring its record, that a loss to the nation's top ranked team, Cincinnati. The Braves were lucky to leave without another blemish on their record.

Playing before a record crowd of 11,104, the Warriors led their visitors at intermission, 40-30, but saw their lead go down the drain as the Braves hit hot shooting ways early in the second half. Once in the lead, the Braves employed stalling tactics. In the remaining min-

utes only six points were scored. However, Marquette had tied the score, 57-57, and sent the game into overtime.

It was close in the overtime period, too, but the Peoria team came out on top, 61-59. Kojis led both sides with 21 points.

Marquette started fast when they met Detroit in the Motor City, but the Titans caught up and employed a stall which had proved successful for Bradley.

Leading by one point, 58-57 with 1:30 remaining, the Titans capitalized on Warrior mistakes and increased their lead to the final score of 65-58. Mangham was the Warriors' big gun. He scored 26 points, with 22 coming in a torrid first half exhibition.

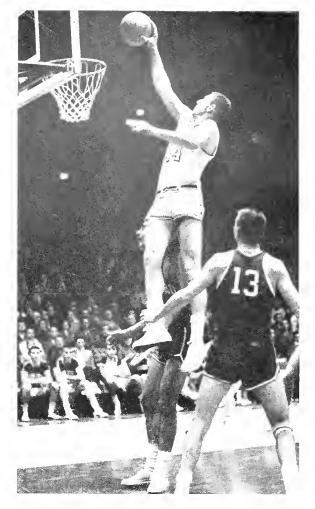

The Air Force Academy also resorted to stalling tactics to nip Marquette, 70-68, in overtime.

Blowing an eight-point lead in the final three minutes, the Warriors missed winning the game in regulation time when Kojis' last-second basket was judged to be too late by the officials. Kojis popped in 23 points to lead the scorers; Mangham, 22.

The Blue and Gold snapped their five game losing streak at Louisville by defeating the home team, 78-70. The lead see-sawed back and forth until mid way in the second half when the Warriors grabbed an eight-point lead which they maintained till the final buzzer.

Kojis, 21, and Mangham, 20, paced the Warriors in outbattling the taller Cardinals. Kollar and Kersten, who had 13 and 12 points respectively, were also in double figures for the Tribe.

79-66. The Warriors amazed the Chicago Stadium crowd with their fast break which they supplemented with 47 percent shooting. Kojis popped in 19 points; Kollar, 17.

Next, the Tribe ran into a hot shooting Xavier squad that quickly jumped to an 8-0 lead which they expanded to 44-26 at half time. Following intermission, the Musketeers increased their margin to 19 points.

Led by Kojis, who netted 25 points, the Warriors closed the gap to 74-70, in what Hickey has termed the "greatest comeback I have ever scen." But the Warriors could not tie it up. Their comeback fell short; Xavier won, 79-75.

Hickey's crew blew a ten-point lead, losing to St. Bonaventure, 74-70, to conclude a six game road trip. After losing their 42-32 half time lead, the Warriors battled back to knot the score at 58 all, only to have the Bonnies pull away. Kojis dropped in 29 points.

MU's quest for revenge was unsuccessful when they encountered DePaul at the Arena in late February. The Blue Demons, who had earlier dealt the Warriors their worst defeat of the season, came out on top again, 65-63.

The Demons won the game from the foul line in a game marked by rough play. Thirty-five fouls were called, 21 against the Warriors. Mangham fired in 22 points; Kojis, 16.

Kojis' 12 baskets enabled him to break Marquette's field goal record when the Warriors topped Drake, 73-64. At the conclusion of the season, Kojis had tallied 219 two-pointers, 24 more than the record previously held by Mike Moran. Kojis' 20.9 average also set a new University record.

At Des Moines, Kojis scored 24 points and Kollar 19, and the Tribe grabbed the lead midway in the first half. Their 52 per cent shooting enabled them to win going away.

Marquette concluded the home season by defeating Xavier, 67-61. The 6,016 fans helped set the new oneseason home attendance mark of 100,477.

The lead bounced back and forth several times in the first half. But the Warriors shot a hot 54 per cent after intermission which proved to be too much for the Musketeers.

Once again, Kojis with 21 points and Mangham with 18, paced the Warriors.

A second-half rally Iell short when Marquette dropped their final game of the season to Creighton, 69-66.

Mangham and Kersten closed their college careers with 19 and 17 points, respectively. Kojis dropped in 15 points. He missed Marquette's season scoring record of 526 by four points.

Kojis and Mangham, the "Kangaroo Kids," combined to make the nation's best two-man rebounding team in college basketball during the 1959-60 season. Kojis snared 384 rebounds to place eighth among collegiate basketball leaders. Mangham's 341 ranked 16th.

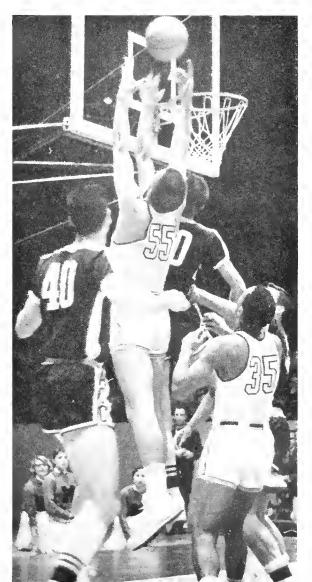

Mangham was voted the team's most valuable player. Ed Carter was elected captain for the 1960-61 season.

Coach Jim Smith

Labeled by Jim Smith as "one of the best ever at Marquette," this year's Freshman Basketball team possessed height, depth and speed.

Three towering centers, 6'9" Andy Chuchvara and John Fedders and 6'8" Len Jefferson, topped the tall squad; eight of its members were 6'5" or better. The tall crew of forwards was headed by Lee Borowski, Bob Chemielewski, Jay Dolezal and Dave Erickson.

A trio of flashy guards. Ron Glaser, Bob Hornak and Dick Nixon, provided the speed although the forecourt men were by no means slowpokes. The whole team showed its proficiency at the most vital of all basketball ingredients, scoring.

After losing to the Varsity, 91-67, the Freshmen played Alumni teams and intrasquad games before each Warrior home game.

# WRESTLING

Injuries handicapped the performance of the 1959-60 wrestling team, which finished with a 3-7 record. Seven of the top eight grapplers were out at one time or another due to injuries.

After routing Bradley, the Warriors could only manage victories over Illinois Tech and UWM, Losses came at the hands of Loras, Luther, Notre Dame. Stevens Point, University of Illinois-Chicago, UWM and Wheaton,

Captain Dan Finlay, who compiled a 7-2 dual meet record, retained his 115-pound title in the Wisconsin Amateur Athletic Association meet and took second at the Interstate Invitational Intercollegiate meet at Cleveland.

Coach Melvin Shimek

# TRACK

The Warrior track squad prepared for the outdoor season through a number of indoor meets.

"Bus" Shimek's crew opened the indoor season with a triangular meet versus Central and Western Michigan, February 20. A record breaking performance by Central Michigan's mile relay team in the final event enabled them to nose out Marquette for second place. Western Michigan proved too powerful for both squads, finishing first by a wide margin.

Roger Abbott (second from left) represented Marquette in the 100-yard dash at the Central Collegiate Conference meet at Marquette Stadium last June.

### 1959-60 Track Team

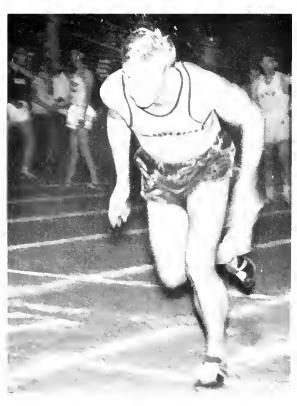

Bottom row: Terry Evans, Jim Allen, Dave Mellady, Batond Viragh.
Second row: Phil Maresca, Rager Van Scatter, Bab Schaefer, Gary Mercada, Jahn Lesch, Dick McDermott

**Top row:** Ken Rass, assist. coach, Isaura Rivas, Jahn Katsubka, Bab Verbick, Dan Krause, Steve Sichterman, Rager Abbatt, Bab Tupta, Mike Flynn, Tam Falk, manager, Melvin Shimek, caach.

Pole vaulter Bob Verbick turned in the best performance by a Warrior, vaulting 13 feet, six inches, good enough for a three-way tie for first place. Dan Krause finished second in the 60-yard high hurdles and third in the 60-yard low hurdles.

Third-fourth place combinations were won by Si Woods and Steve Sichterman, shot put; Gary Mercado and Dave Mellady, 880-yard run; and Bob Schaefer and Bob Tupta, 600-yard run. Botond Viragh finished third in the broad jump as did Roger Van Seotter in the 60-yard dash.

The following Saturday at the Central Collegiate Conference meets at Kalamazoo, Marquette finished fourth behind Western Michigan, Notre Dame and Central Michigan while topping Loyola, Detroit and Drake,

Warrior Karl Sturtzen (second from left) clears the hurdle with ease in the 120-yord high hurdle event at the CCC meet.

The top Warrior performance was Schaefer's third place finish in the 600-yard run. Mercado and Mellady once again finished three-four in the 880-yard run, as did Woods and Sichterman in the shot.

Fifth place positions went to Terry Evans in the 1,000 yard run and Viragh in his specialty, the broad jump.

The two-mile relay team of Mercado, Schaefer, Evans and John Lesch churned the course in 7:49.5 to grab Marquette's only first place at the University of Chicago Track Club relays. March 5. The sprint medley team of Van Scotter, Viragh, Roger Abbott and Mellady finished second.

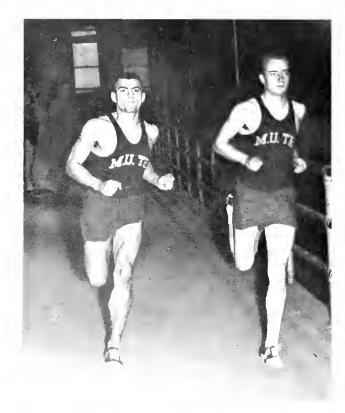

Woods' second in the shot and Abbott's second in the 60-yard dash topped individual Warrior performances. Bob Lott finished third in the 600-yard run, while Viragh and Verbick gained thirds in the broad jump and pole vault.

The weekend of March 10 was a busy one for the Warriors when they closed the indoor season with two meets on consecutive days.

At the Chicago Daily News relays, the Tribe's mile relay team turned in their best time and won first place. Van Scotter, Viragh, Abbott and Schaefer ran the distance in 3:21.7. The two-mile team took third place honors.

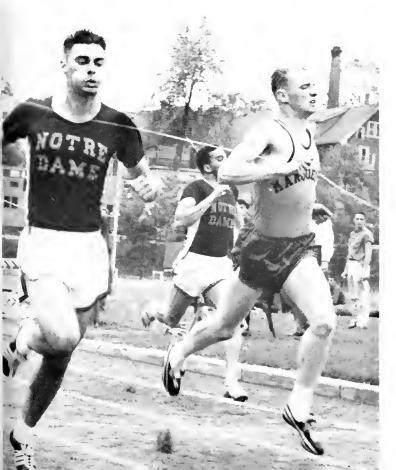

The next night saw the mile relay team, with Mike Flynn subbing for Viragh, drop to second place while competing in the Milwaukee Journal games at the Arena.

The two-mile relay team finished third to Western Michigan and Notre Dame as it did the previous night, despite shaving .04 seconds off their 7:37.8 time for the Chicago event. Lesch, Mercado, Mellady and Evans handled the chores for the Blue and Gold.

Ca-Captains

Roger Abbott breaks the finish line just a shade before his Notre Dame opponent.

The heavy winter snow fall prevented Shimek from moving his erew outdoors as soon as he would have liked in preparation for the outdoor season. The Warrior cindermen were scheduled to participate in the Drake and Kansas relays and to duel Bradley, Central Michigan, Minnesota, Northwestern, Notre Dame and Wheaton.

The season closed with the annual Central Collegiate Conference meet at Marquette stadium.

Gymnastics, in its second year as an organized sport at Marquette, is coached by Bob Lagerman, a physical education instructor and a former all-state gymnast.

The Marquette gymnasts competed in the State Amateur Athletic Union meet at the Marquette gym at which Warrior Dave Spehar scored a perfect 10 points on the still rings. The team also demonstrated various exercises between halves of the Marquette-DePaul basketball game.

Lagerman hopes that gymnastics at Marquette will soon be on an intercollegiate level.

As a result of the late date of Easter, the Marquette Golf team had a short season of only five matches. The Warriors faced Beloit, Carroll, Lawrence, St. Norbert and UWM.

Charles Nader, coach, had returning lettermen Bob Doyle, Joe Fasculo and Joe Jezukewicz to form the nucleus of the team. Rounding out the squad were Jim Bennett, Tom Bruett, John Kelly and Jim Young.

Nader hoped his squad could do as well as the 1959 team which finished with a 7-0 record. All home matches were played at the Tuckaway Country Club.

Coach Don Clark started the season hoping his squad could equal the fine 11-1 record of the 1959 team. Gone from the team via graduation was Charles Mulcahy, three-time letterman who compiled a 28-3 record during three years at Marquette. Mulcahy was to assist Clark with the coaching duties during the 1960 season.

Battling for positions on the team were returning lettermen, Jim Busselle, Al Luke, Bob McLoone, Paul Sovey and Brand Spangenberg. Newcomers Jack Carpenter, Ed Ogrin and Gregg Ripp appeared to be the best bets to round out the squad.

The Warrior racqueteers were scheduled to meet Carroll, Chicago, DePaul, Lakeland, Lawrence, North Central, Northern Illinois, Northern Michigan, Notre Dame, St. Ambrose and UWM.

Tuesday nights were coed nights at the Marquette gym this year.

The Women's Recreational Association held weekly meetings at which coeds participated in badminton, basketball, bowling, fencing, swimming, table tennis and volley ball.

Awards were presented at a spring banquet to WRA members who distinguished themselves during the year by their interest and participation in the group.

# INTRAMURALS

Intramural sports are a part of the physical education program. The object is to provide a wholesome program of physical activities for the entire student body. The activities are so varied that there is an opportunity for every student to participate in some sport of his choice. The program, under the direction of Donald A. Clark, includes basketball, badminton, bowling, boxing, fencing, golf, handball, table tennis, track and field sports and weight training.

In Intramural competition, the Rabbits, independent league champs, proved to be the strongest outfit, winning both the all-University football and basketball crowns. They topped Alpha Phi Omega, 7-0 for the football title and edged Triangle, 66-61 for the basketball championship.

Los Chicos won the dorm football championship and the Magoos gained the basketball title.

Fraternity league winners were: Alpha Phi Omega, football; Evans Scholars, bowling; Triangle, volleyball; and Sigma Phi Delta, basketball.

There was much activity in the Intramural ring this year. Bi-weekly boxing shows were on tap from November until the all-University boxing championships in April. Jerry Sheehan, a Business Administration student and a former amateur and professional boxer, coached the Marquette pugilists.

Spring saw the arrival of the Intramural softball season which was concluded with the all-University softball tourney.

IN RETROSPECT

Moods are tempers of mind that invade our college lives from the excited confusion of freshmen year to the anxious expectation and assurance that marks the last days of senior year. We can recognize moods in each other as they come and go, sometimes quickly, depending on the emotion to which they are attached. And, more important, we see moods in ourselves, affecting our studies, family and social lives, and our enjoyment of life itself. 💥 Each new year has given us new experiences and consequent emotions and moods. As freshmen we remember the adventure of getting to know the dorm, roommates, new friends, a new city . . . confusion of registration, classes . . . first adviser, term paper . . . first mids and final exams, disappointment and perhaps fear . . . excitement of going home for the first vacation . . . choosing our activities . . . the first game of bridge . . . As sophomores we belonged. knew our way around . . . welcomed the freshmen and gave advice . . . elation of renewing old acquaintances . . . desired to become more a part of the school . . . held our first offices in campus organizations . . . pledging . . . dances and parties. As juniors, we remember wondering at how fast two years had gone . . . seeing the end in view . . . concentration on major and minor courses . . . a feeling of importance . . . more personal attention from teachers and advisers . . . cultural events ... cooking ... a part-time job ... economical living. 🦋 In senior year, we contemplated our vocations more intensely than ever before . . . completed our work in organizations . . . passed the gavel on . . . job-hunting . . . worry mixed with anticipation . . . accomplishment with a tinge of regret. "Then we became graduates with a sense of balance, ready and prepared to face our future.

We Look Forward To New Experiences

### SOPHOMORE YEAR

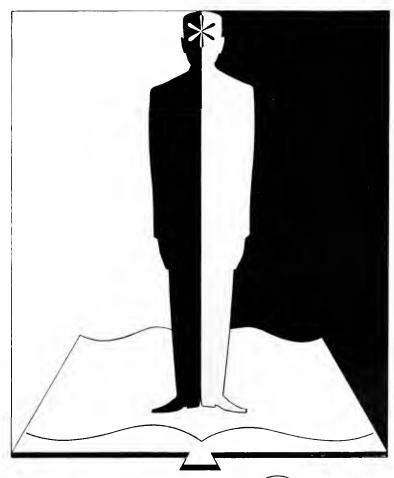

We Find Intensity In All Things

### **JUNIOR YEAR**

We Grasp Responsibilities

### SENIOR YEAR

We Discover A Beginning In The End

Freshman year—its million firsts . . . anticipation, uncertainty—all melt as the years go by. But memories will linger, memories of joys, of hardships.

and exploring the city . . .

the fun of Welcome Week, the picnic, registration, and five eight o'clocks . . .

the first pile of books—how we wondered if we would totter under their weight...

and the search, the quest for knowledge, for ideas, the hunt for B 8 7 4.2 7 M29 in the library till the stacks closed in on us...

and the first dance . . .

and the search for jun the organizations, choosing some, disregarding others.

We remember how every moment counted-study when and where we could ...

and how they called for our time—sign here, sign here, sign here . . .

and pledging when we wondered if we'd ever walk again, and all those names to learn . . . but the end was worth it: the pin, symbol of professional and social bonds . . .

and we were intense in all things—in living, in loving our God.

And we realized we were growing up... and the appreciation of class-room theory improved with practice... part time jobs gave added maturity, independence, accomplishment.

fields of interest narrowed, assignments piled up . . . and we took on domestic responsibilities—the smell of something in the oven, the call of "coffee's on" for guests . . .

and we remember the Union, where we spent entire evenings or quick minutes after a four-hour class...

We remember the ending . . . leaving with regret but also with anticipation, much like that of our freshman year . . . we took one last look at familiar things . . .

and the end came faster, Senior Week, the last dance . . .

and we made a decision for the future, pledging our love, solemnizing our engagement . . .

with the last test, the last blue book, ambitions are realized; octor, a teacher, an engineer... and we live to remember, remember to live...

nd we came back for another ok . . , ties that hold us to te school are fibers of the eart . . .

A yearbook is born of many things. It is born of exasperation—a daily round of pictures to select, pages to design, proofs to read. It is often routine and mechanical. The staff is beset by pictures that don't materialize, ideas that won't come and time that goes too fast.

It starts with high hopes that are gradually diminished by physical and financial limitations. There are sleep-less nights and vacations cut short worrying about deadlines.

Deadlines . . . deadlines . . . deadlines . . . the word grows louder and more frequent until it echoes in all places and all times . . . the endless question . . . "How's the HILLTOP coming?" . . . the standard answer . . . "Fine."

There is occasional discouragement.

But there is something deeper. Here is a work that will outlast the newspapers and magazines. We hope that in 20 years this HILLTOP will hold even more meaning for you than it does today. It is our satisfaction not only to have contributed to the life of the University but also to have captured this very life for future memories.

There is a professional pride in giving final approval to a page form and than watching it come off the press.

There are strong bonds among the staff and many enjoyable hours in Copus Hall.

The anticipation of the book's acceptance, the unveiling, the joy of a student seeing his picture for the first time—those memories outweigh all the uneasy spots of the year.

Of these things the I960 HILLTOP was born. Until now it has been our child. It has been our pain, our worry, our satisfaction, our joy. It is an unforgettable part of our college lives. But like all children it must grow up and take its place in the world. It must meet other people and face competition with others of its kind.

Though it will always be a part of our memories, the I960 HILLTOP now belongs to you. We hope you enjoy it.

ROOM TO GROW

Harnischfeger is a good place to grow, to share in the future of a company that knows people are its greatest resource.

During the past 76 years, the people of Harnischfeger, have given us the brains, the vision, the imagination, and the skill to build continually better products for the world's basic industries. The people of Harnischfeger have established a solid foundation of product quality and customer service to build on . . . to grow on.

Over the years, hundreds of Marquette University graduates have joined our company. They have grown with us to become important members of our organization—at every level in production, engineering, sales, administration.

If room to grow, and to develop your talents to the utmost, is important to you—then consider the possibilities Harnischfeger can offer you. Call Wayne Busse at OR. 1-4400.

## Application-Engineered Controlled Motion Fluid Power Systems

For any linear or rotary motion . . . for precision control . . . for absolute synchronization of multi-stage or multi-operation equipment . . . for lowest cost per year — it's Oilgear!

For a future with a pioneering-engineering company, where Marquette graduates function in key capacities — call Oilgear!

# The New Symbol

This slim "golden shark" is part of the biggest success story in the outboarding field. It represents the West Bend line, which has become *America's Fastest Grow-*

ing Outboard.

Why are more people going West Bend? Because feature for feature and dollar for dollar, West Bend outboards are the best buy on the market.

For example, the 40 h.p. Golden Shark with electric starter; 25 amp. generator; thermostat cooling and fuel economizer, sells for only \$685\*. The Golden Shark and every other West Bend outboard has an exclusive one year warranty.

Stop at your West Bend dealer's soon for a demonstration of the many convenience features of West Bend's 1960 outboards.

## Decade of Challenge

Here's a brand new decade for you—a decade of challenge! It's yours, you know, yours to do with as you please.

The 1960s are waiting for you to stamp and mold them. How they will appear to a class of graduates in the '70s depends upon you.

If you wisely apply what you have learned during your years at Marquette, this decade can be one of the brightest in the history of mankind. If you hold firmly to the basic truths and temper your actions with clear thought, they will be years of which you may be justly proud.

Yes, this is a decade of challenge. How you will meet it is your decision. We believe that you will face it with wisdom. It is our prayer that you do.

#### FOR YOUR CAREER

L-M's many graduates of the "Hilltop" play a major role in assuring our leadership as a manufacturer of products for the electric power industry. They're a vital part of our sales, engineering, manufacturing and accounting force.

Our products, ranging from small fuses to large transformers, are an integral part of electric power systems throughout the world.

And behind every product is the assurance that L-M research and development has played a key role in preserving the "top quality" reputation L-M customers take for granted.

#### More BRADLEYS Wherever Schools Are Built

School authorities, architects and builders, PTA's all have insisted on the maximum in sanitary washing facilities—as witness the almost universal use of Bradley Washfauntains

in modern school buildings everywhere.

Bradleys provide more facilities in given space, reduce piping connections and installations by 70% or more, and save on water consumption.

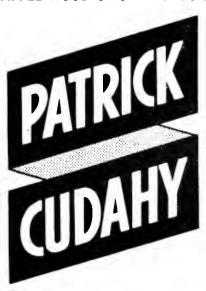

With foot-control, hands are free to wash in the clean

running spray of water. Hands make no contact with passible germ-carrying surfaces.

## Milwaukee Stockyards

Animal hide has served mankind since earliest civilization. Its strength and beauty are inherent qualities. But the tanner's skill is responsible for its conversion to leather as we know it now, with its many rich colors and surface textures, its suppleness and built-in water resistance. Pfister and Vagel is proud of its part in developing new tanning techniques. But it also recognizes a debt to the great centers of learning like Marquette. Here old techniques in many fields are constantly re-assessed. Here chemical research paves the way for new techniques. And here, abave all, the sense of challenge to do all things better is instilled in the hearts and minds of each new generation.

## KOHLER Enameled Iron Sinks

The superior design quality and construction of Kohler sinks provide an eye-catching, wife-pleasing combination hard to beat.

Kohler enomeled iron sinks have a lustrous finish, acid-resisting to prevent spotting and staining. Deep, roomy basins offer plenty of "chare space." Rigid cast iron construction insures years of quiet service, provides solid mounting for disposal units.

The chrome-plated fittings are all brass, offering maximum resistance to corrosion and engineered for finger-tip control.

#### aluminum bronzes are cast in many foundries, but

## ...there's only one AMPCO\* Metal

IT'S mighty difficult to tell the inner worth of an alloy by looking at its outside. One thing you can count on, however, is the fact that Ampco always means quality, because we've built a world-wide reputation by being specialists in copper-base alloys.

Even in the hurry-up-and-get-it-overwith tempo of today, we don't permit "short-cuts" when making Ampco Metal. It's subject to control after control, test after test. When we're through with it, it's tops . . . a metal designed to stand up in spots where it encounters excessive wear and conditions of abrasion, erosion, and corrosion. It's always dependable.

Ampco Metal is not made from commercial ingot but from virgin metals obtained to rigid specifications and alloyed in Ampco's foundries under strict laboratory controls. We're the only people who *produce* Ampco Metal.

\*Reg. U.S. Pat. Off.

Ampco employs top engineering graduates from Marquette University. They have found it an enjoyable place to work.

This is your chance to step into the "space age" with the greatest name in industry—General Motors. One of these positions may be for you ... if you are an engineer in the electronic, electrical or mechanical fields, or if you have an advanced degree in mathematics or physics.

Whot About the Future with AC? Briefly, AC's professional manpower requirements stem from the ever-rising demand for AC products, and the recent acquisition of important longrange projects.

AC has grown to a position of leadership—in research, development and production. And it's a position AC intends to keep.

Today AC builds the renowned AChiever inertial guidance system for such leading missiles as Thor and Mace. More and more the trend is toward inertial guidance. And now, AC's inertial guidance—one of the world's most sophisticated systems—is in development for Titan, America's most advanced missile. Tomorrow AC may build inertial systems for space vehicles, commercial aircraft and ships at sea. What's more, AC produces a wide variety of other electromechanical, optical and infra-red devices . . . for military and commercial uses.

AC Forms New R & D Group. This new department is devoted to the Research and Development of advanced systems and components. Current programs include many vital projects. Interplanetary navigation and guidance. Digital computer development. Advanced inertial sensors. Passive electromagnetic detection, surveillance and navigation systems. Guidance systems for ballistic missiles, space vehicles and aircraft.

These programs project AC—and you—into the forefront of space age achievement.

Free Advanced Education Develops Careers. There are no dead-end jobs at AC. For while you're working, you can prepare for promotion through AC's advanced training—the finest "in house" program in all of industry.

Program A—for recent graduate engineers—gives you a firm foundation in the theory and application of inertial guidance systems and servomechanisms.

Program B—for experienced engineers—consists of upgrading studies in inertial guidance, servomechanisms, environmental problems, engineering math, physics, plus advanced state-of-the-art courses.

Program C—for all engineering supervisors—involves management training developed by a team of AC executives and University of Chicago industrial relation experts.

These thoroughly practical courses constitute AC education "extras." AC offers them in addition to their education assistance programs for men who wish to study for advanced degrees in nearby universities.

**Top-Flight Men Come to AC.** Now you know several reasons why many highly respected engineers and scientists find AC a congenial place to practice their profession. But there are more reasons, many more.

Here you'll work with recognized experts on projects that are the forerunners for a whole new industrial era. Yon'll have access to the finest equipment and facilities. The door to advancements, you'll discover, is always wide open—even to top management positions. And you'll enjoy the security and benefits for which AC and General Motors are famous.

Write Today for More Details. If this kind of opportunity intrigues you, write the Director of Scientific and Professional Employment, Mr. Robert Allen, Oak Creek Plant, 7929 South Howell Avenue, Milwaukee I, Wisconsin.

It could be the most important contact of your life.

#### To further your technical appreciation of the 1960 HILLTOP:

This 46th edition of the HILLTOP is printed on 80 pound rose white brush-coated enamel by the Marquette University Press. Colored inks were mixed especially for the book by the General Printing Ink Company. Milwaukee.

Cutlines are set in 8 point Metro and copy type is 10 point Times Roman. Two imported foundry types were used for headlines: Palatino in the regular section and Michaelangelo in the opening color section.

Senior and group portraits were taken by Morrison Studios, Milwaukee.

Engravings and theme illustrations were done by Pontiac Graphics Corporation, Chicago, and the cover idea was executed by Craftco Covers, Joliet, Illinois. The Boehm Bindery, Milwaukee, completed the job.

The editors wish to thank those who helped in any way with the publication of the 1960 HILLTOP, especially the staff who contributed countless hours to the book's completion.
